

## AT YOUR SCHOOL!

SMASH HIT offers songwriting led music lessons in your child's primary school. In small groups, your child will not only learn how to play an instrument but they will be taught how to write their own song in a fun, educational and collaborative environment!

Each term, your child will embark on a unique journey to learn how to write, perform and record the music and lyrics to their own original song. In addition to this, by the end of the term, your child would have learnt a range of instrument skills and music terminology. All whilst working as a team, growing in confidence and contributing to the school curriculum.

SMASH HIT is a chance for your child to express themselves creatively and discover the limitless nature of not only music but of themselves.
